

Delivery Settings Tab

Purpose:

- **Specifies delivery-related characteristics for each third party.**
- **Helps automate and optimize order creation, preparation, and processing.**

Key Fields:

1. Day / Delivery Time

- **Defines possible delivery days for the third party.**
- **Specifies usual delivery times.**
- **Used during order creation to suggest a default delivery date.**

2. Grouping Code

- **Assigns a default grouping code for all orders to this third party.**
- **Useful for sorting and processing orders together, e.g., launching all orders with the same grouping code simultaneously during preparation.**

3. Delivery Department / Carrier Code

- **Assigns a default carrier or delivery department for all orders to this third party.**
- **Helps organize and process orders according to the carrier for simultaneous preparation.**
