

SpeedWMS – Incoterm Code

Purpose:

- **Defines the Incoterm for a load.**
 - **Used to indicate delivery terms and responsibilities between buyer and supplier.**
-

Access:

- **Menu: Settings → Transport → Incoterm Code**
-

Usage:

- **The Incoterm code is a characteristic of the load.**
 - **It is defined in the “Documentation” tab of the load.**
 - **Entry or modification of codes is done directly in the table.**
-

Notes:

- **Ensures clarity on shipping responsibilities and reduces errors in transport management.**
