

SpeedWMS – Manufacturing Configuration

Access:

- **Menu: Settings → Manufacturing**
-

Purpose:

- **This section provides configuration options directly linked to the Manufacturing module in SpeedWMS.**
 - **All available options are presented in the Manufacturing section of the online help.**
-

Key Points:

- **Configuration settings here affect how the Manufacturing module operates.**
- **Only users with access to the Manufacturing module can modify these settings.**
- **Settings may include workflows, production rules, and operational parameters specific to manufacturing processes.**
