

Addition by Simplified Entry

Purpose:

- **Quickly add an order line using the first, directly accessible line on the Lines tab of an order.**

Steps:

1. Access Simplified Entry

- **Locate the first line on the Lines tab; this is the simplified entry line.**

2. Enter Item Code

- **Type the item code manually or search the full item repository via right-click on the item field.**

3. Specify Details

- **Quantity: Enter the number of units to add.**
- **Quality: Automatically initialized from the item sheet's preparation quality or the activity's default if not defined.**

4. Validate Entry

- **Click the validation button to confirm the addition.**
- **The order line is now added to the order with the specified item, quantity, and quality.**
