

Distribution Templates

Access

- **Menu: Preparation / Distribution Templates**
-

Overview

- **Displays a list of existing templates.**
 - **Allows you to create, modify, or delete templates.**
-

Creating a New Template

1. **Click New to open the creation window.**
 2. **Enter the following details:**
 - **Template Name:** Name for the template.
 - **Code:** Select the third-party recipients for the order.
 - **Percentage:** Define the percentage of goods to be distributed to each recipient.
 3. **Click Validate to finalize the creation.**
-

Managing Templates

- **Newly created templates are added to the list of existing templates.**
 - **Templates can be modified or removed using the corresponding buttons.**
-

 **Tip:** Distribution templates help automate the splitting of goods among recipients according to predefined percentages, reducing manual workload during order processing.
