

Organization of the Collects

Purpose

- To manage and prioritize the sequence in which pick-ups (collect missions) are prepared.

Access

- Through the context menu in the Collects window → select Order Collects.

Functionality

- Select a pick-up mission line.
- Use the up/down arrows to move the line in the list.
- This changes the priority of the pick-ups.
- The order number of the collect mission updates automatically to reflect the new sequence.
